Hi, I'm Harsh Bararia

A full-stack web developer.

About

I'm a self taught full-stack web developer. I am from India, currently studying in St. Xavier's College based in Kolkata. I'm developing since 2020 and its my passion to write code. And will sure be a valuable asset to any company. I like to learn, get through challenging situations. Never gonna give(you) up. Never gonna let you(company) down.

Technologies I know

HTML CSS JAVASCRIPT REACT TYPESCRIPT MONGO DB SQL FIGMA

Projects

Meme Generator ⧉

A classic meme generator that fetches meme templates from an api and stores it in a variable. A randomizer function is then used to show the meme to the user.

E Commerce Application ⧉

An E-Commerce website. Browse through the catalogue and if you want to buy can contact seller by sending them and email

Chat Application ⧉

A full stack chat application created using MERN Stack. You can also search through massive collection of spotify albums and playlist and play music.

Social Media ⧉

A social media website but doesn't have the very essence (cannot talk to others) of it. Because it is not meant to be one. You can share your taughts and feelings with the world.

Unknown Project ⧉

Go ahead and explore it yourself what the project beholds for you. I am sure you won't be disappointed by this one atleast.
